Notes:

1. M&I historical use is computed when the M&I allocation is less than 100% and is based upon the average of actual deliveries made the last 3 years of unconstrained CVP delivery. The historical use for Contra Costa Water District is 170,000 acre-feet as agreed upon in contract renewal negotiations.
2. Agricultural use computed as maximum contract amount less M&I historical use, if any.
3. Sacramento River Water Rights includes: base supply (1,775,509 a.f.) & Project supply (340,111 a.f.)
4. Project also acquires up to 133,264 a.f. incremental Level 4 from willing sellers subject to availability and funding.
5. New Melones East Side allocation is computed as a quantity, rather than a percent, since only one group receives the water allocation.
6. Oakdale I.D. and South San Joaquin I.D. receive up to 600,000 a.f. of water annually based upon a 1988 Agreement and Stipulation in recognition of the Districts Melones water rights. The Districts are not allocated water, but rather receive water based upon in-flows into New Melones and application of a formula in the 1988 Agreement.
7. Water supplied to City of Sacramento under operations agreement not included: Amer. R. (245,000 a.f.) & Sacramento R. (90,000 a.f.)
8. Total does not include 800,000 CVPIA b(2) water provided out of Project yield for mitigation purposes.
